ABOUT ME

I am a highly skilled and motivated software developer with over 3 years of experience in developing enterprise-level applications using Java and JavaScript technologies. My expertise lies in developing robust back-end solutions using Spring framework and creating dynamic front-end interfaces using React and Angular frameworks. I am passionate about staying up-to-date with the latest developments in the field of software development and am constantly seeking new challenges to help me grow my skills. My ability to work collaboratively with cross-functional teams and communicate complex technical concepts to non-technical stakeholders has been a key factor in my success. I am committed to delivering high-quality software that meets the needs of my clients and end-users, and I thrive in fast-paced, dynamic environments where innovation is encouraged.

WORK EXPERIENCE

Software developer
Afghan web [10/06/2019 – 20/10/2022]

- Participated in the initial wave of developers learning and implementing the React.JS library.
- Rewrote HTML to meet industry and company standards for SEO and Accessibility.
- Tested, debugged, and shipped 10s of 1000s of lines of code to various development teams.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive landing pages for both company and client.
- Maintained graphic standards and branding throughout the product's interfaces.
- Involved in developing, implementing and configuring the JSON Objects in the Restful Web Services APIs
- Actively participated in status report meetings and interacted with others.
- Development of microservices using spring cloud.
- Designed and managed API system deployment using fast http server and Amazon AWS architecture.
