Software Engineer (Full Stack)

Software Engineer with 4 years of full stack web development experience specializing in Spring, React and Angular. Expertise in front-end development, demonstrated through successful projects and strong coding skills. Strong problem-solving abilities and a collaborative team player. Ready to contribute technical expertise and drive successful outcomes in a dynamic work environment.

SKILLS

Programming languages: Java | JavaScript | TypeScript | HTML | CSS
Frameworks: Spring | React | Angular | Bootstrap
Databases: MySQL | MongoDB PostgreSQL
Other Skills: Docker | Git | CI/CD | AWS | Linux | RESTful APIs | Agile Methodologies | Redux | NgRx | Firebase | Microservices

EXPERIENCE

Afghan Web, Herat — Software Developer

July 2021 - May 2023

Key responsibilities:
- Designed, developed, and maintained software applications using various technologies.
- Collaborated with clients to understand their requirements and deliver tailored solutions.
- Conducted thorough testing and debugging to ensure high-quality and bug-free software.
- Provided technical support and troubleshooting for deployed applications.

Notable accomplishments:
- Integrated continuous integration and deployment (CI/CD) pipelines, resulting in faster and more reliable software releases.
- Developed an automated testing framework, reducing manual testing efforts by 60% and improving software quality.
- Collaborated with the team to identify and resolve software defects, ensuring high-quality deliverables.

LANGUAGES

Persian, English

Netlinks, Herat —Intern Backend Developer

March 2020 - June 2021

Key responsibilities:
- Developed and maintained backend systems, ensuring scalability and performance.
- Collaborated with cross-functional teams to gather requirements and implement solutions.
- Integrated third-party APIs for seamless data exchange.
- Conducted code reviews and implemented best practices for code quality and security.

Notable accomplishments:
- Optimized database queries, reducing response time by 30% and improving overall system efficiency.
- Implemented a caching mechanism, resulting in a 40% decrease in server load and improved application responsiveness.

- Designed and implemented a RESTful API, enabling seamless integration with external systems and increasing data accessibility.
- Developed a robust error handling system, reducing system downtime by 20% and enhancing user experience.

EDUCATION

Khaja Abdullah Ansari University, — *Bachelor of science in Computer science*

 2018 - 2021

Studied a comprehensive curriculum in computer science, gaining a strong foundation in programming, algorithms, data structures, and software development. Developed problem-solving and analytical skills through coursework and projects.
